Can you provide consistent and reliable community access to condoms? Can you host a BAHA "RED BUCKET?"

RED BUCKETS provide easy community access to FREE condoms. They are only suitable for busy locations with supervised staff trained to keep buckets FULL at all times. RED buckets are managed very successfully by businesses in high traffic areas, near PMV stations, busy streets, near shops or worksites. Your HIV Champion ensures training, ordering & permanent supply.

Call Joe at BAHA for more information 325 9228.
